

HIGH INJURY NETWORK CITY OF PHILADELPHIA

**VISION
ZERØ**
CITY OF PHILADELPHIA

HIGH INJURY NETWORK

Vision Zero is data-driven. High Injury Network identifies corridors with highest rates of fatalities and severe injuries per mile. It addresses 50% of all traffic deaths and severe injuries on just 12% of Philadelphia streets (2012-2016).

Data source:
PennDOT 2012-2016; excluding
interstates

This High Injury Network will support
the 2017 Vision Zero Three-Year
Action Plan.
